

**Question :** This question provides the player with a `.png` file. This picture will seem to only have half the flag.

**Possible Hint :** PNGs can have animations too! And what do animations have..?

**Solution :** The flag `CTF{7w0\_fr4m35}` is divided into the two frames of the APNG (Animated PNG) image. However in order to view the frames of an APNG one must either open the image in browser or an APNG Editor ( eg : <https://ezgif.com/apng-maker>).

- 1) In a browser such as Chrome or Firefox  
(Check the `Chrome Solution.gif` in the folder)
- 2) In an online APNG editor like ezgif

**Additional Notes :** In the browser viewing route (1), the player will have to extract the frames using something like print screen.

The two halves of the picture are :
